

Partnership Proposal

Prepared for **Steve Mutnick — Montessori (Private / Independent School)**

Contact **sjminv@aol.com · (408) 836-3698**

Prepared by **EduCare Leads · 9503-3692 Quebec Inc.**

Date **June 18, 2026**

1. The Opportunity

Every empty seat in your Montessori program is recurring tuition that never arrives. Most schools rely on word-of-mouth, the occasional Google search, and open houses that fill slowly — leaving classrooms below capacity and growth on the table.

EduCare Leads installs a complete, done-for-you enrollment system that puts qualified local families in front of your program and books them onto tours — so your admissions calendar stays full.

2. What We Install — The EduCare Ecosystem

- **Website / landing page** — a conversion-focused page built to turn local parents into booked tours.
- **Ad creatives & campaigns** — hyper-local Meta ads, written and designed for your Montessori program and the families nearby.
- **Automations & AI follow-up** — every inquiry is texted, qualified, and booked in seconds, so no lead goes cold.
- **Channels & tracking** — all leads captured and tracked in your CRM, from first click to enrolled family.

3. The Offer — 90-Day Risk-Free Partnership

We're so confident in the system that we'll prove it first.

EduCare Leads works FREE for the first 3 months.

You pay us nothing for our service, strategy, build, or management during that time. You only cover your CRM and your ad spend.

What EduCare provides at no cost (first 90 days):

- ✓ Website / landing page build

- ✓ Ad creative design and copywriting
- ✓ Campaign setup, launch, and ongoing management
- ✓ AI lead follow-up and booking automations
- ✓ Weekly strategy meetings

What you invest:

Item	Cost	Paid to
CRM subscription	\$97 / month	CRM provider
Ad spend	Recommended minimum \$500 / month	Meta (directly)
EduCare Leads service	\$0 for 90 days	—

Ad spend is paid by you directly to Meta and stays in your control. The higher the ad budget, the more tours we can generate — \$500/month is the recommended starting minimum.

4. Weekly Meetings & Defining Success Together

Every week we meet to review performance, optimize campaigns, and stay aligned. At the start, **we define together what a successful campaign looks like for your school** — measured in booked tours per month:

STARTER 3 tours / month	GROWTH 5 tours / month	SCALE 10+ tours / month
---	--	---

We agree on your target up front, then build the campaign to hit it.

5. How It Works

1. **Kickoff & onboarding** — we collect everything we need (brand, offer, assets, accounts).
2. **Build** — website, creatives, and automations go live.
3. **Launch** — campaigns go live; AI follow-up books tours.
4. **Weekly optimization** — we meet, review, and improve every week.
5. **90-day review** — we sit down together to review results and decide how to move forward.

6. After 90 Days

At the end of the partnership, we review the results against the success target we set together. If the system delivered, we discuss continuing on a paid basis to keep scaling your enrollment. **No long-term commitment is required to start.**

7. Next Steps

To get started, simply confirm below. We'll send onboarding and have your system live shortly after.
